

CAPABILITY OVERVIEW

Unlock Enterprise AI Power. Escape the Enterprise Price Tag.

Lightstep delivers affordable, configured Microsoft Azure AI solutions for small and medium-sized businesses (SMBs), turning your data into measurable efficiency and competitive advantage.

Four ways we apply intelligence

We meet you where you are and understand your outcomes. We then bring AI technology solutions, with a clear ROI, to your business — tailored to your industry and data, not one-size-fits-all automation.

01. AI Strategy Consulting

We assess your data, processes, and goals to identify high-ROI use cases and create a clear roadmap for adoption.

02. AI Frameworks

We offer pre-built, Azure-based solution templates customized to your industry, helping you deploy in weeks, not months.

03. AI Process Integration

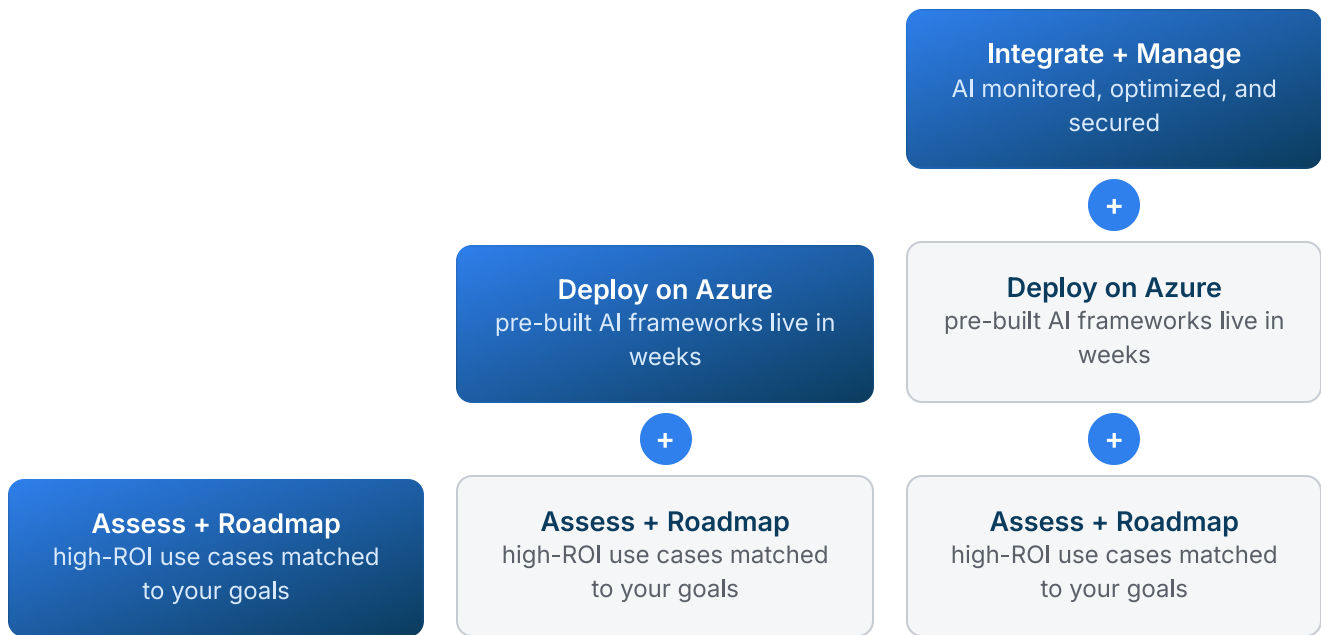

Our team builds intelligent apps that embed AI into your daily workflows automating decisions, summaries, and analytics.

04. Managed AI Services

We monitor, optimize, and evolve your AI systems so they remain secure, effective, and aligned with your business growth.

Strategy, frameworks, integration, and managed services run as one engagement — we guide you from strategy to implementation to ongoing success.

Every engagement builds on the last

STRATEGY → DEPLOYMENT → ONGOING OPTIMIZATION

WHY SMBS CHOOSE LIGHTSTEP

Built on Microsoft Azure

Secure, trusted, enterprise-grade foundation.

SMB-Friendly Approach

Predictable pricing, clear deliverables, scalable support.

Vertical Specialization

Frameworks for professional services, logistics, finance.

Partnership Model

Strategy to implementation to ongoing success.

Ready to Compete Like an Enterprise? Your AI Journey Starts Here.

AI shouldn't be out of reach. With Lightstep, you can modernize your business, automate smarter, and compete stronger and all backed by Microsoft's trusted cloud. Send us a note and we'll reach out to give you more details.
